About

Tin is an independent, determined and curious boy. Across four years, teachers have consistently noted his logical thinking, talent in Maths and Science, and capacity for independent learning – alongside responsibility, kindness and a natural flair for leadership in group work. Beyond Science, Maths and ICT, Tin loves drawing – from dinosaurs to comics – experiments with motion graphics, and plays badminton.

Personality: Independent Responsible Meticulous Kind & caring Natural leader Determined

Skills: Logic & problem-solving Scientific thinking Mathematics Coding (ICT) Reading & reasoning Drawing & visualization

Interests: Science Drawing dinosaurs Comic drawing Motion graphics Badminton

Key Strengths

Strong scientific thinking Gold at HKISO, STEMCO and SIMSO; a perfect 10 in Science every single year.	Solid, well-rounded academics Excellent Student four years running, with 10/10 across most subjects – Maths and English included.
A persistent competitor Competes on national and international stages; independent, careful, and persistent.	Art meets science Biological art (dinosaurs) paired with logical thinking and deep reading – toward Science Illustration.

An Uncommon Combination

Logic + Art + Language Science Illustration

An interesting thing about Tin is that he is developing three areas that rarely go together: logical thinking (Science, Maths, ICT), drawing – especially biology and dinosaurs – and language ability, meaning deep reading, deep understanding and reasoning. Put side by side, these could be a good foundation for Science Illustration: telling science stories through accurate, easy-to-grasp visuals. This is the direction Tin would like to explore in his upcoming projects.

Logical thinking Science · Maths · ICT	Art Biological & dinosaur art · 1st-prize painting	Reading & reasoning Deep reading, analysis and clear reasoning
--	--	--

Science Illustration

Science illustration – turning knowledge into accurate, vivid, easy-to-grasp visuals.

Achievements

International (2)

Silver Medal – HKISO Science Olympiad	2025
Silver Medal – SIMSO Science Olympiad	2025

National (10)

Gold Medal – HKISO Science Olympiad	2026
Gold Medal – STEMCO Science Olympiad	2026
Gold Medal – SIMSO Science Olympiad	2025
Silver Medal – HKIMO Math Olympiad	2026
Silver Medal – ASIAROPES Science Olympiad (National round)	2025
Silver Medal – ISOCSEA Science Olympiad	2026
Silver Medal – ASMO Science Olympiad (National round)	2025
Silver Medal – HKISO Science Olympiad (National round)	2025
Bronze Medal – PIMSO Science Olympiad	2026
Bronze Medal – CISO Astronomy Olympiad	2026

School & City (9)

1st Place – Loving Spring painting contest	2024-2025
1st Place – School swim team trials	2023-2024
1st Place – Edurun, Boys' Singles (Grade 4)	2025-2026
Silver Medal – ASMO Science Olympiad (Hanoi City)	2026
2nd Place (Team) – Edurun 100m	2022-2023
2nd Place – Badminton, Boys' Singles (Grade 4)	2025-2026
Bronze Medal – ASMO Science Olympiad (City round)	2025
3rd Place – Boys' Breaststroke (School)	2023-2024
Green Podcast – Top 15 best entries in school	2025-2026

Academic Record

Cambridge programme · Vinschool The Harmony

Excellent Student · All 4 years Natural Science Star Award · 2 yrs

Cambridge Learner Attributes

Achieved C on every attribute, across all 4 years

C Confident Confident in working with information and ideas	C Responsible Responsible for self, responsible to and respectful of others
C Reflective Reflective as a learner, developing ability to learn	C Innovative Innovative and equipped for new and future challenges
C Engaged Engaged intellectually and socially, ready to make a difference	

Growth Journey

Grade 1 – Early talent emerges · 2022–2023

Teachers noted his 'natural ability in maths', with strong reasoning, problem-solving and independent learning from the very first year.

Grade 2 – Building the foundation · 2023–2024

Kept up high results in Maths, Science and ICT; described as thoughtful, accurate and meticulous.

Grade 3 – Leadership emerges · 2024–2025

Naturally took on leadership in group work and mentored peers; excellent in Maths & Science, with clear progress in English writing.

Grade 4 – Visible maturity · 2025–2026

Improved focus and behaviour, making the most of his abilities; confident with ratio, fractions, scientific investigation and data analysis.

Overall Assessment

Across four years, Đình Hữu shows a strong, steady academic profile – especially in logical thinking, Science and Technology – alongside independent learning, natural leadership and good character.

A promising foundation for international secondary programmes and STEM fields.

Well suited to: **Science Illustration · Science Communication · Computer Science · Artificial Intelligence · Robotics · Engineering · Data Science · Quantitative Finance · Scientific Research**

Currently developing: a double-check habit to sharpen accuracy – the underlying ability is already strong.
